ABOUT ME

Motivated Junior Software Engineer with a strong foundation in software development and problem-solving. Proficient in multiple programming languages, including Java, Python, and JavaScript, with hands-on experience in web development, application design, and debugging. Adept at collaborating within cross-functional teams to deliver high-quality solutions in an agile environment. Passionate about learning new technologies and contributing to innovative projects. Eager to grow and expand technical skills while contributing to organizational success.

EXPERIENCE

Junior Software Engineer (Intern / Graduate Role)

ABC Tech Solutions

01/2024 - Present

Assisted in the design, development, and maintenance of web and software applications using Java, Python, and JavaScript. Collaborated with senior developers to implement new features, fix bugs, and improve application performance. Participated in code reviews to ensure code quality, readability, and adherence to best practices. Worked with REST APIs and databases to support backend functionality and data management. Contributed to testing, debugging, and documentation to support smooth deployments. Gained experience working in an Agile/Scrum environment, attending daily stand-ups and sprint planning meetings.

- Employee of the Year
- Strong leadership
